ACADIA 09: reForm()

ASSOCIATION FOR COMPUTER AIDED DESIGN IN ARCHITECTURE

Bonzai3d

This one day workshop will cover the workings of bonzai3d, its ease of sketching and generating 3D models, and its self-learning facilities. It will move quickly to the actual design of architectural forms that go significantly beyond what is possible with both traditional manual means and other more conventional 3D modelers. The workshop is set to encourage intense hands-on participation and exploratory design that starts with quick sketches, which lead to robust modeling and even fabrication. Participants will actually be encouraged to prepare their designs for 3D printing that will occur after the end of the workshop.

DETAILS

Instructor:

Matthew Holewinski and Chris Yessios - <http://www.bonzai3d.com>

Location:

*The Institute of Design (IIT)
350 North La Salle Street, 4th Floor
Chicago, Illinois USA 60654
tel: 312.595.4900*

Date / Time:

21 October 2009 / 9am - 4pm

Equipment Needed:

Laptop computer (Macintosh or Windows)

Equipment Provided:

Bonzai3d.

Registration Fee:

\$150.00 USD (rate for a 1 day workshop)
